

Temporary Works Awareness Training

The importance of Temporary Works

The HSE have directly identified misuse and malpractice of Temporary Works as a leading contributor to accident statistics on all building sites in the UK.

This course has been designed specifically to meet the needs of contractors and site teams to improve Health & Safety across the whole industry. An awareness of the role of Temporary Works, the necessary procedural and practical steps required to manage Temporary Works and an idea of the potential consequences of misuse of Temporary Works, will allow for peace of mind that it is not a topic that is being neglected.

In modern day construction projects are driven by Health & Safety, schedule and ultimately cost, therefore a negligence of Temporary Works is inexcusable. SJG Temporary Works Ltd are recognised by many as the expert consultancy on issues surrounding Temporary Works and the procedural control of BS5975. This course has been designed specifically to meet the needs of contractors and site teams to improve Health & Safety across the whole industry.

Aims and objectives

The aim of the course is to provide participants with the knowledge and skills to ensure that all site work, company-wide is completed in line with the requirements of BS5975.

By the end of the course, participants should be able to:

- Understand the roles and responsibilities of those involved in Temporary Works.
- Describe the impact of Temporary Works throughout the development of the project.
- Know the procedures in place to gain advice on the management of Temporary Works.

Who should attend this course

- Senior management
- Planners and estimators
- Anyone who may benefit from an increased knowledge of Temporary Works.
- QS's
- Design managers

Who should look to further their competence

Individuals with specific Temporary Works responsibilities should look to be trained and competent within the role of TWC or TWS:

- Specialist contractors and site team
- Project management
- Operational management
- Site management

This course is written and delivered by the Chief Executive Officer of SJG Temporary Works Ltd, Simon Goldsmith.

From his extensive work alongside the HSE, his depth of experience in geotechnics and management of Temporary Works, this course is recognised as successful for providing what your site team NEEDS to know about the topic of Temporary Works.

Bespoke course options are available and depending on delegate demand, different topics and discussions can be added to this session to allow your company to benefit from your own recognised strengths and weaknesses.

The course will provide an opportunity to identify and share examples of best practice within the company. To identify procedural changes required for the future and to implement further training requests.

A minimum of a CPD certificate of attendance will be awarded to all participants.
